

DAN WESSON LIMITED EDITIONS

Dan Wesson Limited Edition Model 15-2VH 8-inch barrel in case with IHMSA Silhouette buckle.

Another view of the 8-inch Limited edition on top of the case showing the IHMSA logo on the case.

IHMSA
Limited Edition — 1 of 100

Closeup of the left side of the barrel. The IHMSA serial number is etched on the other side of the barrel.

We are offering two 100-gun Limited editions of Dan Wesson's top grade ventilated rib, heavy barrel Target model, 15-2VH series in .357 Magnum, one with 8-inch barrel, the other edition with 10-inch barrel.

This is not a super fancy, gold-inlaid package, but more like what could be called an ordinary man's edition.

For example, the 15-2VH 8-inch model retails for \$281.80. You will note in the photos that it comes in one of our custom made economy cases that retails for \$26.95 with the IHMSA logo on top, and one of our new Silhouette buckles that sell for \$10. Note that the gun has Zebra wood grips, and in particular notice the etched logo on the left side

IHMSA markings, Limited edition — one of 100 on the side of the barrel. On the other side of the barrel is etched the actual IHMSA serial number, one through 100.

Total retail price of the package adds up to \$318.75. Allow a few bucks to insure and ship it, and we are talking \$325.00. Yes, that's the full price, to members only, shipped prepaid and insured UPS. All we need is a signed FFL of your local dealer to ship it to.

By the way, the 10-inch model is exactly the same package, retailing for \$30 more, so the complete price on it is \$355.00. Frankly, we think this is a real bargain, a silhouette shooting gun and one that will have tremendous collectors value in years to come.

Only thing is, we are getting 10 of each barrel length per month, and they are being sold on a first come, first served basis. Right now, the lowest serial number we have available is IHMSA-27. If you may be interested, give us a call and reserve your number. We will have some 8-inch and 10-inch in identical serial numbered pairs if you call in soon enough.
